

# Youth Prevention & Safe Storage

---

Adult use, child safety, and smart storage practices.

## Introduction

Adult use means adult responsibility. Safe storage and clear communication protect young people and pets while preserving your ability to use cannabis responsibly at home.

## Science Explained Simply

Children are more sensitive to THC. Accidental ingestion is preventable with child-resistant packaging and locked storage. Clear labeling reduces confusion.

## CARTA Product Spotlight

CARTA products come in child-resistant formats. Labels and dosing guidance reduce misuse. Our education supports responsible use for households.

## Practical Guidance

Use locking containers. Keep products in original packaging. Store high and out of sight. Educate teens about adult-only use and family rules.

## FAQ & Myth vs Fact

Q: What do I do if a child accidentally ingests cannabis?

A: Seek medical care immediately and bring the product packaging with you.

## Responsible Use & Safety Notes

Never leave sprays or capsules unattended in public spaces. Keep transport discreet and legal.

## Key Takeaway

Safe storage protects families and the future of responsible adult use.

#### **LEGAL DISCLAIMER**

These materials are for educational purposes only and are not intended as medical advice, diagnosis, or treatment.

Cannabis affects individuals differently. Effects may vary depending on dose, setting, and individual biology.

Always consult with a qualified healthcare professional before starting or changing cannabis use, particularly if you are pregnant, breastfeeding, or taking prescription medications.

CARTA products are designed for responsible adult use only. Keep out of reach of children and pets.

Do not drive or operate heavy machinery under the influence of THC.

Compliance with all local, state, and federal laws is the responsibility of the user.
